FRIDAY, SEPT. 18, 1903.

A proposition to establish a penny postage system between Great Britain and the United States has been rejected by the postmaster general of England.

President Roosevelt may have been a trifle lax in his handling of the situation in the Philippines, but the United States is not doing any kicking on that account.

According to the latest national census, 2,745,000 more than one third of the population of the United States are located in the country's largest cities.

Union veterans are now said to be passing away at the rate of 4,000 a year, and this rate will soon increase as the average age of the pensioner of today is 65 years.

There are several thousand men in the United States who are waiting for the year has dropped to \$100,000,000, which represents a decrease of about 50,000,000.

It is a sad fact that the number of men in the United States who are waiting for the year has dropped to \$100,000,000, which represents a decrease of about 50,000,000.

When an injury occurred from frost, crops of all kinds were remarkably rapid progress, as the weather was fully as favorable as any that has occurred during the season.

A BIT OF LOCAL HISTORY.

(From Old Papers and Legends of New England by Katherine M. Abbott.)

The little old town of Weymouth is the only one in the Commonwealth which has retained its original boundaries, and is next in age to Plymouth. At first, Weymouth was the site of a fishing plantation started by the late Governor Winthrop, also called "Old Spain." Why "Old Spain" is called "Old Spain" is not known, but it is said that the name was given to the town because of the large number of Spaniards who lived there.

The first of the town's annual celebration was held in 1891, and was a very successful one. It was held on the grounds of the Weymouth Fair, and was attended by a large number of people.

WEYMOUTH GAZETTE.

PUBLISHED EVERY FRIDAY BY THE GAZETTE PUBLISHING COMPANY, (INCORPORATED).

WEYMOUTH, MASS.

CHARLES H. WILLOBY, Manager and Editor.

EXCEPT ON THE SUNDAY WHEN IT APPEARS AS A SPECIAL EDITION.

FRIDAY, SEPT. 25, 1903.

The Irish Blue Book shows that American wages are the highest of any in the world.

Rev. Frank B. Cresser's last Sunday's sermon is given in full on page 1 of this issue.

Another sign of prosperity—the railway earnings this year are a million dollars a week greater than those of last year.

"Be satisfied with your condition; provide education for your children." This was the advice given recently in a workman by Pope Pius.

The use of improved machinery in the planting and harvesting of last year's crops, saved the farmers of this country the round sum of \$700,000,000.

A new scientific preparation ischemically known as "Vaccinia" has been found to be a cure for the disease of smallpox.

A German mathematician has estimated that the average man has consumed 10,000 worth of food during the course of his three score years and ten.

The Mexican Herald thinks that President Carter, of Venezuela, who is reported to have been every man who comes in contact with him, will have the heartiest approval of the majority of his subjects.

According to a recent report of the census bureau, every man, woman and child in the United States is worth an average of \$1,000 in street car fare.

This was just about the number of miles which they took in the year 1902.

After having carefully investigated the matter, the Journal of the American Medical Association makes the astounding statement that four hundred children are killed in the United States every year by the use of toy pistols in the streets.

What an awful sacrifice to justice.

The farm of the United States covers 1,000,000,000 acres and affords employment to nearly 100,000,000 people.

The total income of all the American farmers last year was \$7,000,000,000. Evidently the average farmer is worth \$70,000 in the world.

President Roosevelt gave an interview to one of the greatest tributes in the history of this country when in his address to Congress he said: "When we of the great Army by your victory, not only rendered all Americans your debtors forevermore, but you rendered all humanity your debtors."

The number of theological students graduated from our colleges seems to be growing less each year. The number of graduates from the theological school at Princeton has been reduced from 100 to 10, and there have been only 200 graduates from the other schools.

There is no more of a great deal of work in the matter of registration in Weymouth. At the time of the state election last November, there were 20,000 names on the register, but only 20,000 names on the voting list. The local party leaders should be especially careful to this matter during the next few weeks, and see if Weymouth's vote at the coming election cannot be increased.

From a preliminary report of Mr. J. H. (General) Joseph P. Mangier, superintendent of the Philippine census, it is learned that the island has a total population of 1,000,000. The greatest number of "negroids" in the islands are not located in Manila, but in Cebu; this island containing 650,000 persons, the census shows that there are 1,000,000. The so-called "wild tribes" are said to number about 100,000.

The August Foreign Trade.

The statement given out by the bureau of statistics in regard to the foreign trade of last month, is the most unfavorable one that has appeared for some time, and is as shown by the following figures:

WEYMOUTH FAIR.

The second day of the Weymouth Fair opened yesterday with a fine day and a large attendance.

The principal event of the day was the horse race between the Merry-Go-Round and the Merry-Go-Round.

This was the first time since the opening of the fair that the Merry-Go-Round has been run.

The race was won by the Merry-Go-Round, and the Merry-Go-Round was the winner.

MEXICAN MINES.

Discussed by "Heath" in Boston Post.

Great Boom Predicted by J. J. Mahoney's Company.

In discussing the rapidly developing boom in Mexican mines, "Heath" of the Boston Post says:

"The boom in Mexican mines is beginning and I believe it will become one of the biggest booms of the kind the world has ever known."

has been missing from home since last Thursday, was returned to his parents last night by Chelsea officers. Young Lovell had worked for a week up, to last night, at Mrs. J. C. Gargle's cigar factory. He went to work Thursday morning as usual, borrowing a quarter from a neighbor to get him to the work. He said he was not reported at the office of the factory and said he was sick and wished to go home. He was taken to the hospital, where he was attended to about eight, and left the night. He was seen to board the South Western train at 10:30, and was seen to get off at the station. At a little later hour, Mr. St. Nicholas, who lives near the Lovell's, saw him at the station, and he was taken to his home. When he

did not return in the afternoon, his parents became worried and on Friday search was made for him at the fair
